

Online Seminar on Implant-Infections in Megaprosthesis

Modern management concepts – current challenges and possible solutions

The PRO-IMPLANT special seminars focus on selected advanced topics involving most complex implant-associated infections.

In this Online Seminar, key factors for successful management of infections involving Megaprosthesis will be presented by an interdisciplinary faculty. Practical tips for your daily practice and innovative solution strategies will be discussed. The seminar is organized in cooperation with Implantcast and Heraeus Medical.

International faculty:

- Prof. Dr. Volker ALT (University Hospital Regensburg, Germany)
- Dr. Fabrice FIORENZA (Centre Hospitalier Universitaire Dupuytren, Limoges, France)
- Prof. Dr. Lee JEYS (Royal Orthopaedic Hospital, NHS Foundation Trust, Birmingham, UK)
- Assist. Prof. Dr. Andrej TRAMPUZ (Charité – University Hospital Berlin, Germany)

Venue: Online

Wednesday, January 27th, 2021 from 6-8pm (CET)

18.00 – 18.05	Welcome & introduction	Trampuz (5')
18.05 – 18.15	Introduction: biofilms & mega-implants	Trampuz (10')
18.15 – 18.30	Surgical management of infections in megaprosthesis	Jeys (15')
18.30 – 18.45	Antimicrobial management of infections in megaprosthesis	Trampuz (15')
18.45 – 19.00	Case discussion – prosthesis exchange (Q&A)	Faculty (15')
19.00 – 19.10	Break-out videos: (i) megaprosthesis, (ii) bone cement	Faculty (10')
19.10 – 19.25	Coatings of implants: facts & experience	Alt (15')
19.25 – 19.40	Use of tumor prosthesis for infections in non-oncology situations	Fiorenza (15')
19.40 – 19.55	Case discussion – prosthesis retention (Q&A)	Faculty (15')
19.55 – 20.00	Wrap-up & closure	Trampuz (5')
